

Conservation Site Assessment and Planning

Build your site assessment and planning skills!

Date: December 8-10, 2009

Location: Ordway-Swisher Biological Station, Melrose, Florida

Tuition: \$380.00

Registration: <http://nata.snre.ufl.edu/>

This workshop teaches participants to build their site assessment and planning skills to effectively guide their management work over a multi-year period.

Participants learn:

- ☛ Comprehensive site assessment techniques
- ☛ How to set conservation priorities and identify threats
- ☛ Development of effective management plans
- ☛ How to deal effectively with competing management needs in the planning process
